Louisville Water Works-The Water to be Turned on To-Day. We are gratified to announce that the Louis ville Water Works are completed, and the water will he let into the pipes to-day at one o'clock. If this great enterprise has not been sompleted ithin the time it was promised, yet it laso ucar that none who are acquainted with its magnitude will find fach. But little npwards of two years have passed since the first stone was laid; the work has progressed rapidly, and is in a manner finished. The munificent subscription of the city, amounting to more than \$800,000. was the basis of action; but the application o this money by the clear headed and sagacious President, Allred Harris, and the skill of its accomplished Euglneer, T. R. Seowden, has achieved the success which every one desired. The Louisville Water Works are in every re spect as complete as any in the country. The onree from which the water is obtained to supply the city is free from town drainage and an outaminating influence that could in the least mpair its pure and healthful qualities. The suply is taken from the Ohlo river one and a quarter mlies above the corporation line. The river at that point has a coarse, gravelly bed,

of water is cleven feet deep. It should be a matter of pride to every pitizen who has the interest of our beautiful city at heart to know that all the work upon the Water Works has been done by Louisville me chanies, who have generally executed their contracts faithfully. The various jobs, too, have been finished at less than the estimated cost .--Altogether, those who have labored, and those for whom the work was done, have every reason for congratulation. The former got their money, and the latter have the Water Works .-

LOUISVILLE, KENTUCKY, MONDAY MORNING, OCTOBER 15, 1860.

The Bell wing of the opposition in Kentneky exetting badly frightened. They had deluded themselves into the belief that they were going to have an easy thing of it. In return for a consideration to be given in Indiana and Ohio, they conheently hoped to receive the Dorglas vote herr and carry the State by a rousing majority, securing thereby-first the election of Lincoln and all the fat little federal offices which a numher of Lincolnites in the North have said are to be given to the Bellgerines should they be ueressful; and, secondly, the control of the State and County offices for the next half dozen years. The consideration falled in the North, majority of the friends of Bell and Eventert in Indiana coting for Lane on Tuesday lost, and simultaneously, apparently, with a knowledge of the fact, they have also learned that the Squat ters here are too lusignificant in uninbers to give them material aid, even if the Douglas vote could be controlled by the leaders, as it cannot, so as to aid Built directly. They have just discovered that they have been leaning on a broken reed, and are awakening to the fact, that thousands who were taughtlast summer, by the Journal, Josh Bell, L. T. Moone, and the halance of their leaders, that the doctrine of protection ls too important to be surrendered r ignored, will not now vote, at the dictatio whose platform prefermits the whole question and whose mouth cannot be prized open to give niterance to one word on the subject. They have just discovered, what we have be-

lieved from the first, that the people of Kenneky, true to themselves and faithful to their orinelples, will stand by the doctrines langle them last summer by all parties, and give the State to BRECKINHIDGE and LANE. They are alarmed; and, preliminary to a last desperate effort, they make, through their organ, an earnest appeal for "money." "FIVE HUNDRED DOL-LARS HAS ALREADY BEEN ADVANCED BY ONE PERSON," says the Journal, and "numer us smallltems," already "swell up in theaggregate to a LARGE AMOUNT." They want money, MONEY, MONEY! or-the State will go for BRECKINRIDGE! They must have mouey; and having hut little other inducement to offer to those lu possession of that commodity to shell over, they appeal to the fears of the "nolid men." and tell them if the State don't go for BELL, "clvil war" will ensue, uo "purchasers will be found for their real estate," "bank stocks and other securities" will be valueless, and the devil will be to pay generally! Did anyhody ever hear such balderdash? And the "solld men" are expected to get trightened; and to earry Kentucky for BELL and save their "stocks," and "real estate," and other securities, It is hoped they will contribute half they have to the good sause in which a half dozen politicians are so much interested! When sensible men are guilty of such folly as this, it should satisfy the public of the desperate straits to which they are reduced, and give new courage and lupart new

sucrey to those fighting against them. Then, Democrats' taks fresh heart from the desperation of the enomy. They feel already beaten. They are dispirited. They strike yet with vigor, but it is the vigor of despair. It only needs one steady charge along the whole inc-one spirited attack-and we will see them n full flight before us. Do your duty, Democrais' and not all the "MONEY" they can wring from timid "solid men," who may be frightened out of their wits and gold by the ridiculous nonsense about civil war and bank stocks, will defeat Mr. BRECKINGIDGE in Kentucky!

NASHVILLE B NESS.—The races over our course
commence next week, and promise to adford the
most exciting sport that has ever been witnessed
here. The arrival of an unusually large number of horses has required the erection of several new stables. This, we believe, is the first
time since the great Peyton stake in 18-33, that
all the old stables, even, have been filled. In
addition to the new stables, Gen. Cheatham has
had built, since the spring meeting, a large new
public stand. This will add much to the comfort of the crowd in attendance, and parthularly
the ladies, of whom we are confident there will
be a large number.

A large collection of horses have already arrived, among them some of the most noted in
the country. Judge Hunter, of Albbama, has
Goodwood, Sherrod, and a Lexington colt ont
of Pic. Col. Campbell bas a stable of seven,
with Jo. Stoner and Arthur Adams at the head.
Capt. S. G. Moore has three, Laura Parris, Mollio
Jackson, and a Lexington filly. Gen. Woodfolk
has four, among them Lulu Hortun and Ellen
Fall. Gen. Harding has Loyalty, Londen, Chivalry, and one or two others.—T. B. Patterson has
Daniel Boone, Allendorf and Sailie Woodward.
Dr. McGavock, A. Turner, J. T. Scott, W. H.
Johnson, W. Roundtree, and Col. McCrory are
on hand. The Summer county stables, four or
five in mumber, will-farrive to-day or to-morrow.
We regret to learn that Tennessee has given five in number, will arrive to-day or to-morrow.

We regret to learn that Tennessee has given away entirely in her right hip. Allendorf has been turned out for the present. All the other horses are doing remarkably well, and we anticipate the finest short we have ever had over the Nashville Course, —[Nashville Union and American, 18th.

THE RAILROAD CHANNEL AGAIN OPEN.—We vesterday made a visit to the Louisville and Nashville Railroad depot, and were glad to learn that the road has been opened and trains are now running sonstantly and with more regularity than on previous occasions, as noticed by us. The manifests are forwarded with more regularity than hererofore—competent men have been engaged at Louisville, and everything wears more of a husiness aspect than at any time previously. This we are glad to be able to record, and henceforth trust it will remain as it has been recorded. We have never had the pleasure hererotore of apeaking favorably of this road's management, because we could find nothing to commend and much to condemn, and we therefore take pleasure in saying that, for the present, the difficulties are removed, and this channel to the South is opened once more.—[Nashville Rep. Unite the South. Mr. Douglas tried to betray the Democratic arty into the hands of the Black Republicaus in 1858. He counseled, advised, acted, and veted with Seward, Hale, and the halance of them. He was in communication with GREELEY, 2-LAIR, COLFAX, and others of the same party. . vd had a perfect understanding with them. He crounteed "to fight their battles in 1860." All these or's have been charged time and again. They live been proved, members of Cougress and liding men being the witnesses. He has not and them. He cannot be forced or persuaded to deny them. A denial, he well knows, would pen the lips of numbers who have not yetspo-hen; and though fully capable of doing so, true a. Le knows the charges are, he dares not say hey are false. He took his position on the adon of Kansas, not because he believed he was right, but he thought it was necessary to pose the Administration to enable him to get in k to the Senate. This has been proved by Jon. H. BURNETT, of Kentucky, Hon. W. SMITH

CI Virginia Han, Mr. MORRIS of Illinois, and oth-Nor has he deuted that such is the fact. I'nder these circumstances, advocating doc rlues which the Democracy of the South be arve are lu confilet with the Constitution, in oposition to the Cincinnati platform, and in pristent with the rights of their States-hit : It covered with proofs of his treason and had .tl .- au attempt was made to thrust Mr. Dot'G-2 as and his hereales down the throats of "anwilling people;" and because they and maddened by defeats brought about by nelr own ill-thmed concessious to anti-slavery ty which Black Republicaulsm was strengthened and built up, the followers of this man now tell the people of the South, that they and that even pretended opposition to Black appublicanism don't pay, and therefore they will hereafter go the "whole heg." This, It seems icar to us, is the "true intent and meaning" of the leading editorial in the Indiana Sentinel of saturday. Speaking for the Squatters, it first one ously have us a choice-we might let Con resaprobibits lavery, in the Territories, as the black Republicans propose, or, they proposed to ransfer the power to deprive the people of the south of their constitutional rights to the rematters in the Territories! Finding that the people of the slaveholding States see no practical difference, and noue in principle, between the two doctrines, and will stand by the Con setation, we are now told by Douglas organs ide the Sentinel, that we may go to the devil we'le they follow their faithless leader into the camp of the uegro worshipers.

Finank God! we have not relied on the me whom this paper represents. We have yet a no' le band of true and loyal men in the North the will stand by as till the fast, and if need be with with us. If the evil day, with which the be beinel threatens us, should come, which lied myert, in the Buchanans, the Casses, the Dick-2 NauNe, the Pierces, the Biglens, the Brights. are the thousands of true men who stand with t -in for the equal rights of all the States, we vr ... find those whose love and attachment will re-trengthened by our necessities, and who .ill fight in our cause until it triumph; or, if the come to the worst if heaten down by the rts of our enemics and the trenchery of those o no claim to be friends only to injure us, in ou traggle for the Constitution, justice, and the sion, they will gather up all they have, and say was, from full hearts, as Ruth said to Nauml: Entreat me not to leave thee, nor to return from following after thee; where thou goest I will go, where thou lodgest I will lodge, thy people shall I my people, and thy God my God. Where t con direct I will die, and there will I be buried.

And intimating the intention of those with whom it acts to join the Lincoln wing of Ab-Lonism, the Sentiuel taunte us with the fruits of their own weakness first and treachery after varis, and tells us Lincoln's election leaves us to choose between "eccession" and "aubjugasion." Let the South read and take warning

It says:

The effect of the recent Northern elections in the South, we presume, will be to unite them in sommon party for the protection of their peruliar interests. Well, the "proof has been furnished-negative proof, at least, that the charge is utterly false! To sustain their harge, that BRIGHT " VITTED" for LANE, they introduce a rertificate from one single man tating-what? What was charged? Not a word of It! To prove that BRIGHT "VOTED" for LANE, they introduce one witness who says that Mr. BRIGHT, in a speech made the night preites, and said "we must beat them," and then added, "when shall we begin the work? Tomorrow, if you please. You can find no helter time." If we admit (and such an admission, under the circumstances, would be a violent in ference that those engaged in defaming the De morracy of Indiana are sufficiently fair-minded to give all of what was said by Mr. Bright, that

this language was used, it gives no proof, none under the heavens, that Mr. BRIGHT "voted for Lane; and the introduction of this certificate to sustain what the witness does not pretend know auything about, is a confession that they have no evidence that Mr. Bright voted a charged-it is an abandonment of the first positive assertion-it is an admission that they have falsely accused the Democracy of Indiana! Will not Kentuckians consign men who attempt to prop up a desperate and rapidly failing cause by auch means to the scorn and contempt they

Modesty is a good thing in its place-an excellent thing; but the Journal is too modest by half, and we must be permitted to see that it

It maintains this proposition by reference to papers that have supported cman elpation, and to persons who have opposed clavery here, without interruption or disturb ance. And we must confess that it comes near making its point than we have known it to de on any previous occasion. But one fact is neeattention to that only because we are sure the excessive modesty of the Journal forbids and alineion to It in its own columns. That fact is that the Journal itself, without impairing its in incuce or diminishing its circulation, has at various times expressed the strongest antilavery views; and this, coupled with the position our neighbor has always maintained in its

When educed it in Louisville they advertised it an follows: That it was one half lighter than metal, more clearly, and that they were more restain of getting a perfect fit of the month. They now go further and y that it is much stronger than sets on metal, and ess liable to be injured by secident, while the low rice brings it ulthin the reach of all. Believing that heir efforts to give the best work at small profite will opreciated, they have determined on a reductive their prices. To substantiate the above they dge themselves to replace with gold, without exa charge, any set on Vulcanite that fails in any one rticular as set forth above.
